I returned to reviews files and conduct some interviews until 1700 hours.

On the second day I toured the West Detention Center. A single tier building with a total of 19 different housing units (to include a small medical housing). After the tour, I conducted random interviews with inmates and various staff members until 1700 hours.

On the third day, I conducted some additional staff and inmate interviews and observed the interaction of the staff with the inmates inside their housing units into the evening shift until 2100 hours.

On the fourth day, I finalized some additional reviews of files and interviews with various staff members and inmates. Facility Characteristics

Palm Beach County was established as Florida's 47th county in 1909, after being split from Dade County. Palm Beach County encompasses over 2383 square miles, with a year round population of approximately 1.33 million.

Ric L. Bradshaw is the Sheriff of Palm Beach County. The Sheriff's Office currently operates two (2) adult detention facilities, an in-house arrest program, a video visitation center, and an inmate work release program.

The Main Detention Center operates under the command of Captain Kimberly Kinsey and Captain James Marcellino. The facility is located at the Sheriff's Headquarters Complex at 3228 Gun Club Road, West Palm Beach, Florida, 33406. It has an area of 835,000 square feet and is situated on a 52.8-acre parcel of land. The South Tower, one of three adjacent buildings, is a twelve-story high-rise linear structure constructed from concrete and steel in 1993 at a cost of \$52 million. Originally constructed in 1983 with a bed capacity of 822, the six-story East and West Towers flank the South Tower to complete the Main Detention Center. The total bed capacity of this correctional facility is 2,166. This number includes infirmary and special management housing. The inmate population is comprised of pre-trial and county sentenced adult male and female inmates. Female and male juveniles are also housed in this facility. This facility is the largest of the two Palm Beach County Sheriff's Office correctional facilities. The Main Detention Center, a maximum security facility, has the greatest security capabilities and is used to house high-risk inmates, inmates who are in need of special medical and/or mental health care. The 2018 average daily inmate population for the Main Detention Center is 1,405 inmates.

The West Detention Center operates under the command of Captain John Cardaropoli and Captain Eddie Jones. It is located at 38811 Wheeler Way, Belle Glade, Florida 33430. The facility's location is near the edge of the Everglades, approximately 45 miles west of the City of West Palm Beach in Belle Glade, Florida. The facility opened in 1983, and in 1996 was closed on a temporary basis to accommodate a renovation project which enlarged the housing area. In the summer of 2010 the West Detention Center closed all of the inmate housing units due to the jail expansion project. On April 09, 2011 the West Detention Center completed the new construction and annexation of additional buildings. West Detention Center total bed capacity of this correctional facility is 998, including an infirmary and special management housing, with custody levels from minimum to maximum. The 2018 average daily inmate population for the West Detention Center is 617 inmates, comprised of pre-trial and county sentenced adult male and female inmates. No juveniles are housed at this site.

The Palm Beach County Sheriff's Office Corrections Division has been involved in the accreditation process since 1984. Both facilities remain accredited through the American Corrections Association (ACA), with their last audit in November of 2017. Palm Beach County Sheriff's Office obtained accreditation from NCCHC (National Commission on Correctional Health Care) with compliance in all requirements as of December 2017. Detention Facilities achieved re-accreditation from the Florida Corrections Accreditation Commission (FCAC) with 100 % compliance in October of 2018, also receiving the Excelsior Award for achieving eleven (11) successful consecutive reaccreditations.

Auditor Overall Compliance Determination

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Based on Policy, both the Intake and Medical Screening Instruments, and interviews with random inmates and intake staff responsible for screening.

All inmates are assessed by specialized trained Intake and Medical staff during the intake process prior to being assigned a housing assignment for risk of being sexually abused by other inmates or sexually abusive toward other inmates.

Intake screenings take place upon arrival at Palm Beach County Sheriff's Office - Detention Center. The Detention Center uses an objective screening instrument.

The intake screening considers, at a minimum, the following criteria to assess inmates for risk of sexual victimization:

- (1) Whether the inmate has a mental, physical, or developmental disability;
- (2) The age of the inmate;
- (3) The physical build of the inmate;
- (4) Whether the inmate has previously been incarcerated;
- (5) Whether the inmate's criminal history is exclusively nonviolent;
- (6) Whether the inmate has prior convictions for sex offenses against an adult or child;
- (7) Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming;
- (8) Whether the inmate has previously experienced sexual victimization;
- (9) The inmate's own perception of vulnerability; and
- (10) Whether the inmate is detained solely for civil immigration purposes.

The initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to Detention Center, in assessing inmates for risk of being sexually abusive.

Within 30 days from the inmate's arrival at the jail, the Detention Center reassesses the inmate's risk of victimization or abusiveness based upon any additional, relevant information received since the intake screening.

An inmate's risk level is reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness.

Inmates are not disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked.

Palm Beach County Sheriff's Office – Detention Center implements appropriate controls on the dissemination within their facilities of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the inmate's detriment by staff or other inmates. Risk Assessments are controlled by Classification and maintained in the inmate's custody file in locked cabinets in the Classification office.

- Does Not Meet Standard** (*Requires Corrective Action*)

Based on Policy, Classification & PREA Reviews, and interviews with the Major, both Captains, the PREA Coordinator, and the Intake Staff.

Inmates at high risk for sexual victimization are not placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. Since the last audit there have been no inmates at high risk of sexual victimization.

All inmates placed in segregated housing for this purpose have access to programs, privileges, education, and work opportunities to the extent possible. If the Palm Beach County Detention Centers restricts access to programs, privileges, education, or work opportunities, there will be documentation for the opportunities that have been limited, the duration of the limitation; and the reasons for such limitations.
